

To whom it may concern,

I have personally had the pleasure in working with Bryan Bergman and his team at Ecostone Construction since I joined the AMC Theatres team in 2015. Over the past couple of years, Ecostone has been involved in multiple projects in our theatres, including a recent fast-paced national rollout.

Bryan and his team have always performed with very high standards and continue to produce results that are often above our expectations. Any punch list items we may have after a project is completed are always promptly resolved, and without any resistance.

Our theatre management teams have had experiences working with many different vendors and construction companies on various projects, however Bryan and his team often are recognized by the outstanding work they perform.

The below dialogue is part of an email I received from one of our general managers after the completion of a MacGuffins bar installation.

"I was not sure who to send this to, but I did want to let someone know that my team has been extremely happy with the construction crew headed up by Bryan Bergman from Eco Stone. Bryan communicates with the team frequently. He lets us know what is going on for the week. He has also worked with our less than friendly landlord to take care of any issues that have arisen.

I have had the opportunity to work with many vendors, etc on different projects throughout the years and I feel that this has been one of the best experiences that I have had and they deserve to be acknowledged for their hard work." - General Manager, AMC Brentwood 14

Without hesitation I would highly recommend Ecostone for any of your construction needs. I look forward to continuing to work with this team for many more years!

 Alyssa Dummer

Project Manager, Facilities Deployment
